aneurysmal STROKE MEETING PUGLIA 2018

TAILORED TREATMENT OF ANEURYSMS IN AND AROUND THE ACUTE PHASE

San Giovanni Rotondo, May 24-25, 2018

Meeting Presidents

V. Monte, F. P. Florio

Honorary President

V.A. D' Angelo

Scientific Directors

A. Della Puppa, L.A. Lanterna,
W. Lauriola, M. Munari,
M. Muto, A. Pasqualin, G. Russo,
L. Savarese, R. Scienza, V. Seifert

DEPARTMENT OF NEUROSURGERY

DEPARTMENT OF INTERVENTIONAL RADIOLOGY

In the field of SAH, insight into mechanisms of disease should represent an essential framework for aneurysmal occlusion techniques. Advances of endovascular, surgical and intensive care strategies are correlated in an ongoing process.

FACULTY

Maurizio BRACCIO, San Giovanni Rotondo
Nicola BURDI, Taranto
Salvatore CARRATURO, San Giovanni Rotondo
Luigi CHIUMARULO, Bari

12,30 Registration

13,15 Welcome by Authorities

Vincenzo Monte, Francesco Paolo Florio, Vincenzo D' Angelo, Meeting Presidents

Domenico Crupi, Direttore Generale Ospedale Casa Sollievo della Sofferenza

Domenico Di Bisceglie, Direttore Sanitario Ospedale Casa Sollievo della Sofferenza

Roberto Cocchi, Direttore Dipartimento Testa-Collo Ospedale Casa Sollievo della Sofferenza

OUR EXPERIENCE

SESSION CHAIRS: **Anna Simeone, Giuseppe Russo, Alessandro Melatini**

13,45 Early neuroimaging in the acute phase

Teresa Popolizio, radiologist

14,00 First coils policy. Dos and don'ts

Francesco Paolo Florio, Walter Lauriola, neurointerventionists

14,15 First clip policy. Dos and don'ts

Vincenzo Monte, neurosurgeon

14,30 Clinical evidences

Luciano Savarese, neurosurgeon

14,45 In-Hospital stroke care pathway: a model from neurologists

Maurizio Leone, Vincenzo Inchingolo, neurologists

15,00 Concepts of rapid ventricular pacing

Domenico Potenza, cardiologist

15,10 Rapid ventricular pacing for cardiac surgery

Maurizio Braccio, cardiac surgeon

15,20 Anesthesiological management

Alfredo Del Gaudio, neurointensivist

15,35 Territorial management of aSAH emergency

Luigino Tosatto, neurosurgeon

15,35 Discussion

15,50 Coffee break

MEDICAL STRATEGIES

SESSION CHAIRS: **Mario Muto, Giovanni Costella, Armando Rapanà**

16,30 Intensive cares after treatment of aneurysms

Alfredo Del Gaudio, neurointensivist

16,45 Radiological monitoring of perfusion after treatment of aneurysms

Enrico Piovan, radiologist

17,00 Intensive care during vasospasm

Marina Munari, neurointensivist

17,15 What neurosurgeons should know about invisible concerns: early brain injury and autoregulation

Luciano Savarese, neurosurgeon

17,30 Discussion

May 25th, 2018

SURGICAL STRATEGIES

SESSION CHAIRS: **Roberto Delfini, Alberto Pasqualin, Salvatore Mangiafico**

8,45 Rapid ventricular pacing for clip reconstruction of complex aneurysms

Volker Seifert, neurosurgeon

9,05 Microsurgery of complex aneurysms

Renato Scienza, neurosurgeon

9,25 Revascularization for complex aneurysms

Luigi Andrea Lanterna, neurosurgeon

9,45 Flow-assisted microsurgical treatment of aneurysms and intraoperative monitoring

Alessandro Della Puppa, neurosurgeon

10,05 Discussion

SATELLITE NURSING SYMPOSIUM

9,00 PERIOPERATIVE NURSING STROKE MANAGEMENT

ENDOVASCULAR STRATEGIES

SESSION CHAIRS: **Miran Skrap, Maurizio Resta, Francesco Signorelli**

10,20 Endovascular treatment of aneurysms at uncommon locations

Salvatore Mangiafico, neurointerventionist

10,40 Endovascular treatment of aneurysms in the elderly. Technical nuances and results.

Benedetto Petralia, neurointerventionist

11,00 Endovascular treatment of MCA aneurysms

Francis Turjman, neurointerventionist

11,20 Discussion

11,35 Coffee break

TAILORING TREATMENTS

SESSION CHAIRS: **Vincenzo D' Angelo, Renato Scienza, Francis Turjman**

12,00 Concept of poor-grade SAH

Marina Munari, neurointensivist

12,20 Microsurgical treatment of aneurysms following poor-grade SAH

Alberto Pasqualin, neurosurgeon

12,40 Combined surgical-endovascular treatment of complex aneurysms

Miran Skrap, Stanislao D' Auria, Benedetto Petralia

13,00 Endovascular treatment of aneurysms following poor-grade SAH

Luigi Chiumarulo, neurointerventionist

13,20 Discussion

13,35 Lunch

WEBINAR SESSION

SESSION CHAIRS: **Alfredo Del Gaudio, Luciano Savarese**

15,00 Advances in neuroenergetics: lessons for the injured brain

Luc Pellerin, physiologist

SPECIAL CASES IN AND AROUND THE ACUTE PHASE

SESSION CHAIRS: **Volker Seifert, Vincenzo Monte, Francesco Paolo Florio**

15,30 Surgical re-treatment of previously ruptured and coiled or clipped aneurysms

Isabelle Pelissou-Guyotat, neurosurgeon

15,50 Selection of posterior circulation aneurysms for treatment with FD

Benedetto Petralia, neurointerventionist

16,10 Endovascular treatment of giant aneurysms

Mario Muto, neurointerventionist

16,30 Coffee break

17,00 Revascularization for giant aneurysms

Giuseppe Russo, neurosurgeon

17,20 Endovascular re-treatment of previously ruptured and coiled or clipped aneurysms

Nicola Burdi, neurointerventionist

17,40 How pediatric aneurysms are different. Surgical standpoint

Carmine Mottolese, neurosurgeon

18,00 Discussion

18,15 Closure
